

## BMGOC May Bluebell Run Out.

On a lovely sunny evening in May, nine cars set out from Black Dam Ponds car park for a 20 mile run to the Yew Tree Pub at Wield. AS usual a lot of chatter and catching up ensued until we all gathered for Take Off.

As Neil and I had written and driven the run, we made sure everyone got away and then took Marigold directly to the pub to welcome our intrepid participants and to take photos as they arrived.

So.... I took up a stance on the road and waited. Oh no!!!! An empty road and already downed a G and T.....Did I make a mistake ....are they all lost??

Suddenly a little A came over the hill.. Hooray it was Drippy.

BUT yes, they had taken a short cut. Doh!

The sun was still shining as the first arrivals were photographed to the sad news that Paul and Paula's Midget JACK had decided to let go of the clutch

fluid and just STOP. Several people tried to help them but it was an “AA” tow job home.

I emailed them later to make sure they were OK to be told JACK was back in his garage in disgrace and they were eating fish finger sandwiches.

The eight who made it enjoyed the pub food and a lot of chat and banter.

There is one photo missing as David and Jane stopped to help Naughty Jack by going back home to retrieve some clutch fluid so they were very late for their meal. Well folks no good deed goes un-noticed so you guys deserve a GOLD MEDAL.

As always a good evening with friends and MGs.
